[N]* Arrowhead Gathering Company previously offered this service in its Tariff No. 2.19, but effective July 1, 2024, it cancelled this service. (See Arrowhead Gathering Company’s Tariff No. 2.20). Arrowhead Eagle Ford is therefore adopting these services and associated rates effective July 1, 2024.

NOTES TO TABLE ONE

1. The Committed Rates set forth herein are available as of October 1, 2022 for all origin points other than the Verdun Tom Hanks Central Tank Battery and as of December 1, 2022 for the Tom Hanks Central Tank Battery origin point for any shipper that signs a Transportation Services Agreement with Carrier and agrees therein to make an acreage dedication for at least seven years.
2. In addition to paying the rates listed above or the Incentive Rate listed below, as applicable, any shipper delivering barrels to the Castlerock Interconnect receipt point will also be assessed a capital recovery fee of [I] \$0.38945 per barrel. This fee is designed to recover the capital costs Carrier incurred to construct this receipt point and will only apply to the first 2,200,000 barrels delivered to the receipt point. This capital recovery fee will automatically terminate after 2,200,000 barrels have been delivered to the point.
3. In addition to complying with the quality specifications set forth in the applicable Rules and Regulations, a Committed Shipper must also comply with any more stringent quality specifications contained in its Transportation Service Agreement.

INCENTIVE RATE PROGRAM

Carrier is offering an incentive rate program for movements made under the Base Rates set forth in this tariff; movements made by a Committed Shipper in a month under the Committed Shipper rates do not count towards qualification for the Program. Any shipper that ships the number of barrels set forth in one of the volume tiers below at the Base Rate during a month, as measured on an average daily basis, will qualify for the transportation rate for that tier for all of the movements the shipper makes in the month under this tariff. Barrels that such a shipper ships in a month under this tariff at the Base Rate, as well as those that the shipper ships at the Base Rate under [C] (+) Arrowhead Eagle Ford’s FERC No. 2.7 (and subsequent reissues thereof) [C] and (ii) ~~Arrowhead Gathering Company, LLC’s TRRC Tariff No. 2.16 (and subsequent reissues thereof)~~, will be used to determine if a shipper meets the volume tier requirement. The rates below may be subject to indexing each year.

Volume Tier	Incentive Rate (Cents Per Barrel)
10,000 – 25,000 barrels per day	[I] 88.56
25,001 – 50,000 barrels per day	[I] 81.67
50,001 or greater barrels per day	[I] 73.75

UNLOADING CHARGE (applicable to all movements under this tariff): All shipments unloaded by tank truck into the mainline facilities will be subject to a charge of [I] ten and sixty-one one hundredths cents (\$0.1061) per barrel in addition to the transportation rates named here.
