RULES AND REGULATIONS

RULE 1 — DEFINITIONS — "Carrier" means and refers to Williams Field Services - Gulf Coast Company, L.P. "Ethane" as used herein means and is limited to Ethane. "Shipper" means the party who contracts with Carrier for transportation of Ethane. "Consignee" means the party to whom a Shipper has ordered the delivery of Ethane. "Barrel" or "BBL" means forty-two U.S. gallons.

RULE 2 — COMMODITY — Carrier is engaged in the transportation of Ethane by pipeline and will not accept any other commodity under this tariff. Ethane will be accepted for transportation only at such time as Ethane is of the same quality and specifications as defined in Rule 8 herein.

RULE 3 — TENDERS — Tenders will be accepted for the same kind and quality of product aggregating ten thousand (10,000) barrels or more. Carrier may, at its option for its convenience, transport such commodity by intermittent pumpings.

- a) Ethane will be transported, only under a tender accepted by the carrier from facilities connected to carrier's system when a tariff covering the movement is lawfully in effect.
- b) Any shipper desiring to tender Ethane for transportation shall make such tender to the carrier in writing on or before the 25th day of the month preceding the month during which the transportation under the tender is to begin; except that if space is available for current movement, a shipper may tender Ethane for transportation at a later date.

RULE 4 — RECEIPT, DELIVERY AND LEGALITY OF SHIPMENTS TENDERED — Ethane tendered for shipment will be received into the pipelines of Carrier only under the conditions that:

- a) Shipper has provided adequate pumping equipment and facilities to Carrier for injecting Ethane into Carrier's pipeline at a pumping rate satisfactory to Carrier; and
- b) Ethane tendered for shipment is of the same kind and quality as that being transported by Carrier and the transportation of such Ethane would result in no damage to the quality or characteristics of other shipments; and
- c) The Shipper or Consignee has provided adequate facilities for receiving the shipment as it arrives at destination; and
- d) Shipper and Consignee have complied with all applicable laws, rules and regulations made by any government authorities regulating the shipment of Ethane.

RULE 5 — IDENTITY OF ETHANE— Carrier will use its best efforts to maintain identity of individual shipments of Ethane. However, in view of the impracticability of maintaining the exact identity of shipments at all times, the Carrier reserves the right at any time to substitute and deliver a product of the kind and quality comparable to the Petroleum Product shipped. Carrier will not be liable for discoloration, contamination or deterioration of Ethane in transit as may result from normal pipeline operations.

RULE 6 — DETERMINATION OF QUANTITIES AND QUALITY OF PRODUCT — Carrier shall provide meters for custody transfer of commodity on both receipts and deliveries. Connections will be provided for sample accumulation for quality analysis. Carrier will not be responsible for quality. Sample container changing and quality analysis shall be the responsibility of the Shipper.

RULE 7 — APPORTIONMENT WHEN CURRENT OFFERINGS ARE IN EXCESS OF FACILITIES — When pursuant to tenders hereunder, there shall be offered to Carrier more Ethane than can be immediately transported, the transportation shall be apportioned among all shippers in proportion to the rate at which deliveries are currently available for shipment under tenders then in effect.

RULE 8 — SPECIFICATIONS — Carrier offers transportation of Ethane only when it meets the following specifications:

PURITY ETHANE		
COMPONENT	TEST METHODS	SPECIFICATIONS
Methane	ASTM 0-2163	3.0 Liq. Vol.% max.
Ethane & Ethylene	ASTM D-2163	95.0 Liq. Vol.% min.
Propane & Heavier	ASTM D-2163	3.5 Liq. Vol.% max.
Corrosion, Copper Strip	ASTM D-1838	No. 1
Total Sulfur	ASTM D-4045	30 ppm wt. max.
Water Content	VISUAL	No Free Water
Carbon Dioxide	ASTM D-2504	1000 ppm wt. In Lid. max.

NOTES ON TEST METHODS: Method number listed above, beginning with the letter "D," are American Society for Testing and Materials (ASTM), Standard Test Procedures. The most recent year revision for the procedures will be used.

Contaminants -The specification defines only a basic purity for this product. This product is to be free of any contamination that might render the product unusable for its commonly used applications. Specific contaminants include (but are not limited to) dirt, rust, scale, and all other types of solid contaminants, caustics, chlorides, heavy metals, and oxygenates.

RULE 9 — TITLE — The act of delivering Ethane to Carrier for transportation shall constitute a warranty by Shipper that Shipper or Consignee has unencumbered title thereto and that the same was produced in accordance with law. Acceptance by Carrier shall not be deemed as a representation by Carrier of title.

RULE 10 — LIABILITY OF CARRIER — Carrier shall not be liable for any loss of Ethane herein described, or damage thereto, or delay, because of an act of God, the public enemy, quarantine, the authority of law, strikes, riots, or the acts of default of the Shipper or Consignee or from any other cause not due to the negligence of Carrier; in case of losses from such causes, other than negligence of Carrier, losses shall be charged proportionately to each shipment in ratio that such shipment, or portion thereof, received and undelivered at the time the loss or damage occurs, bears to the total of all shipments, or portions thereof, then in the custody of Carrier for shipment via the line or other facilities in which the loss or damage occurs; the Consignee shall be entitled to receive only that portion of his shipment remaining after deducting his proportion of such loss or damage, determined as aforesaid and shall be required to pay transportation charges only on the quantity delivered.

RULE 11 — PAYMENT OF CHARGES — Carrier shall have a lien on all Ethane to cover charges for transportation, including demurrage, and may withhold delivery of Ethane until said charges are paid. Carrier may require a Shipper or Consignee to prepay said charges.

RULE 12 — TIME LIMITATIONS OF CLAIMS — As a condition precedent to recovery of loss, damage or delay, claims must be filed in writing with the originating or delivering Carrier within nine months and one day after delivery of the property, or in case of failure to make delivery then within nine months and one day after a reasonable time for delivery has elapsed; and suits shall be instituted against the Carrier only within two years and one day from the day when notice in writing is given by the Carrier to the claimant that the Carrier has disallowed the claim or any part or parts thereof specified in the notice. Where claims are not filed or suits are not instituted thereon in accordance with the foregoing provisions, Carrier will not be liable and such claims will not be paid.

RULE 13 — QUANTITIES DELIVERABLE The quantity of Ethane deliverable at destination shall be the quantity received at origin, less shrinkage, evaporation or other loss in transit, including leaks and breaks, resulting from any cause other than negligence on the part of Carrier.

RULE 14 — RATES APPLICABLE FROM AND TO INTERMEDIATE POINTS — Products received from a point on Carrier's line that is not named in this tariff, but which point is intermediate to a point from which rates are published in this tariff, will be assessed the rate in effect from the next more distant published in this tariff.

RULE 15 — TRUNK RATE ESCALATION —The trunk rate may be increased by Carrier annually, effective August 1 of each year, in accordance with the annual FERC index, set forth in FERC regulation 18 C.F.R. § 342.3 or any successor thereto.
