RULES AND REGULATIONS

GOVERNING

TRANSPORTATION OF

NATURAL GAS LIQUIDS

BY

PIPELINE

Received, R.R.C. of Texas

MAR 26 2019

Gas Services Division, Austin, Texas

GENERAL APPLICATION

Rules and Regulations published herein apply only under tariffs which make specific reference by number to this tariff; such reference will include supplements hereto and successive issues hereof. Specific rules and regulations published in individual tariffs will take precedence over rules and regulations published herein.

EFFECTIVE: March 21, 2019

Issued and Compiled by:
Frances Kilborne
General Counsel
2000 McKinney Avenue, Suite 400
Dallas, Texas 75201
(469) 290-4100

GENERAL RULES AND REGULATIONS

ITEM NO. 5 - DEFINITIONS

"Barrel" means forty-two (42) United States gallons of 231 cubic inches of sixty degrees Fahrenheit (60°F) and equilibrium vapor pressure.

"Carrier" means Cogent Midstream Products, LLC.

"Component" means each of the individual hydrocarbon constituents contained in the Natural Gas Liquids, including ethane, propane, isobutane, normal butane, and natural gasoline (with natural gasoline including all pentane and heavier hydrocarbon components).

"Component Balance Statement" means Carrier's statement to Shipper setting forth the Shipper Cash- Out Position, if any, for the prior Month.

"Curtailed Month" means any Month in which that Carrier is unable to schedule all Monthly Nominations.

"Day" means each consecutive twenty-four (24) hour period commencing at 7:00 am Central Clock Time.

"Delivery Point(s)" means those points of destination set forth in the Rates Tariff.

"Force Majeure" means an event or occurrence beyond the reasonable control of Carrier that interferes with or prevents Carrier's performance of any obligation or condition under this tariff, under a TSA, interconnect agreement, or other agreement affecting Carrier or Carrier's facilities, including but not limited to the following: (i) actions, orders, regulations, or requests of any Governmental Authority having jurisdiction over the pipeline system, Carrier, or this tariff; (ii) insurrections, wars, rebellion, riots, disturbances, sabotage, acts of public enemies, blockades, embargoes, expropriation, condemnation, epidemics, strikes, lockouts or labor disturbances or difficulties (the settlement of strikes, lockouts or labor difficulties being entirely within Carrier's discretion); (iii) weather conditions or anticipated weather conditions and actions of the elements, including, without limitation, fires, explosions, earthquakes, storms, floods, freezing conditions, washouts, lightning, hurricanes, tornadoes, or landslides; (iv) disruptions to, breakages of, or destruction of all or any portion of Carrier-owned or third party-owned machinery, lines of pipe, or facilities relied upon or contributing to provision of transportation service under this tariff, including the inability to obtain electric power, water, fuel, equipment, parts, repairs or other items or services; (v) scheduled maintenance; and (vi) fires, explosions, freezing conditions, breakdowns or failure of pipe, plant, machinery or equipment. An event similar to the foregoing that interferes with or prevents Carrier's performance of its obligations shall be deemed an event of Force Majeure.

"Incentive Shipper" means a Shipper that has executed a TSA containing either (i) a Plant Dedication, or (ii) a Volume Commitment.

"Linefill" means the quantity of Natural Gas Liquids owned or controlled by Shippers that is required by Carrier to occupy the physical space in Carrier's facilities in order for Carrier to operate its facilities.

"Month" means a period of time commencing on the first Day of a calendar month and ending on the first Day of the next calendar month.

"New Walk-Up Shipper" means a Walk-Up Shipper that has not made monthly Nominations for each of the preceding 12 months.

"Natural Gas Liquids" means an unfractionated, demethanized mix containing primarily natural gasoline, normal butane, isobutane, propane, ethane, and all mixtures thereof conforming to the Specifications.

"Nomination" means an offer by a Shipper to Carrier of a stated quantity of Natural Gas Liquids to receive transportation service from one or more specified origin(s) to a specified destination or destinations pursuant to the terms and conditions of this tariff.

"OPIS Index" means the monthly average of the daily average (AVG) prices per Gallon, for the Month of delivery, as quoted by Oil Price Information Service ("OPIS") in the OPIS-LP-Gas Report for "Any Current Month" under "Mont Belvieu Spot Gas Liquids Prices" using (i) the Non-TET prices for the propane, isobutane, normal butane, and natural gasoline Components; and (ii) the Purity Ethane price for the ethane Component. The OPIS Index is not to include any TET, Oth, or other categories of Component prices that might be published by OPIS during the Term. No value will be given to CO2 or other impurities or for methane in excess of the Specifications.

"Plant Dedication" means a dedication by an Incentive Shipper to deliver all Natural Gas Liquids owned or controlled by such Incentive Shipper at the tailgate of a processing plant to Carrier for transportation under a TSA.

"Ratable" means the delivery of Natural Gas Liquids throughout each Month in Daily quantities that are approximately equal to the volume of Natural Gas Liquids delivered during the Month divided by the number of Days in that Month.

"Rates Tariff" means Carrier's RRC Tariff No. 1.1 or its successor.

"Receipt Point" means the point(s) of origin for receipt of Natural Gas Liquids from a Shipper into Carrier's facilities.

"RRC" means the Railroad Commission of Texas or its successor.

"Shipper" means any party who gives notice for and receives transportation service for its Natural Gas Liquids under the terms and conditions of a TSA and this tariff; the term "Shipper" includes an Incentive Shipper or a Walk-Up Shipper.

"Specifications" means the most stringent quality specifications applicable to any downstream transporter of Natural Gas Liquids received from Carrier's system.

"Transportation Services Agreement" or **"TSA"** is a transportation services agreement made by and between Carrier and a Shipper for the provision of service under this tariff.

"Volume Commitment" means a commitment by an Incentive Shipper to deliver a certain volume of Natural Gas Liquids to Carrier for transportation under a TSA.

"Walk-Up Shipper" means any Shipper other than an Incentive Shipper or a New Walk-Up Shipper.

ITEM NO. 10 - NATURAL GAS LIQUIDS SPECIFICATIONS

Carrier is engaged in the transportation of Natural Gas Liquids as herein defined and will not accept any other commodity for transportation under this tariff.

Carrier reserves the right to refuse to accept any Natural Gas Liquids for transportation service which do not conform to the Specifications (available upon request) or which are not good and merchantable Natural Gas Liquids readily acceptable for transportation service through Carrier's existing facilities and/or which would otherwise adversely affect Carrier's facilities or other Natural Gas Liquids. As a prerequisite to transportation service, Shipper's Natural Gas Liquids must conform to the specifications of the most stringent downstream pipeline at all Delivery Points.

Shipper may be required to furnish Carrier with a certificate setting forth the specifications of each shipment of Natural Gas Liquids to be transported in Carrier's facilities and Shipper shall be liable for any contamination or damage to other Natural Gas Liquids in Carrier's custody or to Carrier's pipeline or other facilities caused by failure of the Natural Gas Liquids tendered to meet the specifications stated in Shipper's certificate. Carrier reserves the right to sample and/or test any such shipment prior to acceptance or during receipt, and if there is a variance between Shipper's certificate and Carrier's test, the latter shall prevail.

If Carrier determines that Shipper has delivered Natural Gas Liquids that contaminate the common fungible stream, Carrier may treat or otherwise dispose of all contaminated Natural Gas Liquids in any reasonable commercial manner at Shipper's sole expense.

If Natural Gas Liquids received by Carrier do not conform to the Specifications, Carrier reserves the right to invoice and Shipper shall pay (i) the costs and expenses incurred to treat or otherwise dispose of all contaminated Natural Gas Liquids including without limitation any penalties or charges incurred by Carrier as a result of such contamination, and (ii) a \$1.00 per Barrel additional payment assessable on all Natural Gas Liquids not conforming to the Specifications.

SHIPPER SHALL BE LIABLE FOR AND SHALL DEFEND, INDEMNIFY AND HOLD CARRIER HARMLESS FROM AND AGAINST ANY AND ALL CLAIMS, ACTIONS, SUITS, LOSSES, DEMANDS, COSTS AND EXPENSES (INCLUDING BUT NOT LIMITED TO CONSEQUENTIAL DAMAGES AND ATTORNEY'S FEES AND COSTS OF REPAIRING, INSPECTING, CLEANING, AND DECONTAMINATING THE FACILITIES OF CARRIER AND THIRD PARTIES) OF EVERY KIND, NATURE OR DESCRIPTION (COLLECTIVELY, "CLAIMS") RESULTING FROM ANY NATURAL GAS LIQUIDS THAT SHIPPER HAS DELIVERED INTO CARRIER'S FACILITIES, INCLUDING BUT NOT LIMITED TO CLAIMS ARISING AS A RESULT OF THE NEGLIGENCE OF CARRIER, EXCEPT FOR CLAIMS ARISING AS A RESULT OF THE GROSS NEGLIGENCE OR WILLFUL MISCONDUCT OF CARRIER.

ITEM NO. 15 - MINIMUM NOMINATION AND PLACE OF DELIVERY

Natural Gas Liquids shall be tendered for transportation service in quantities of not less than 15,000 Barrels per Month at each Receipt Point. However, Carrier may, in its sole discretion, decide to accept Nominations below the minimum requirement, provided space is available and operating conditions permit such acceptance.

Natural Gas Liquids shall be delivered by Shipper to each Receipt Point for transportation service under this tariff on a Ratable basis.

ITEM NO. 20 - STORAGE, ORIGIN AND DESTINATION FACILITIES

Carrier does not furnish any terminaling, tankage, or any other form of storage at origins, destinations or at any other location within Carrier's facilities.

Carrier will accept Natural Gas Liquids only when Shipper has provided necessary equipment and facilities, including storage facilities for receipt of Natural Gas Liquids into Carrier's facilities and delivery of Natural Gas Liquids from Carrier's facilities at pressures and pumping rates required by Carrier. Carrier may require

evidence showing that necessary facilities are available for delivering shipments at the Receipt Point and receiving shipments at the Delivery Point before any obligation to furnish transportation service shall arise.

ITEM NO. 25 - TITLE

Shipper warrants and guarantees to Carrier that Shipper has good title to, or otherwise has the legal right to ship, all Natural Gas Liquids delivered to a Receipt Point for transportation service hereunder, and Shipper hereby agrees to hold Carrier harmless for any and all loss, cost, liability, damage and/or expense resulting from any breach of such warranty. Carrier's acceptance of Shipper's Natural Gas Liquids for transportation service is not an admission by Carrier that Shipper holds good title thereto and is not a waiver of Shipper's obligation to have good title, or otherwise have the legal right to ship, all Natural Gas Liquids thereto.

Shipper must obtain Carrier's written approval before nominating shipments that are encumbered by any lien, security interest or other form of burden, including lack of title, and Carrier may in its sole discretion refuse any such shipment. When any Natural Gas Liquids are tendered for transportation by Shipper and such Natural Gas Liquids are so encumbered, title is held by a third-party, or are subject to litigation or dispute, Carrier may require of Shipper satisfactory evidence of its perfect and unencumbered title or a satisfactory indemnity bond to protect Carrier against any or all loss. This requirement is in addition to all other provisions of this tariff, including Item No. 55. Shipper shall not cause or permit any lien, security interest or other form of burden to be filed or created with respect to Linefill or Natural Gas Liquids in Carrier's possession.

ITEM NO. 30 - MEASUREMENT

Natural Gas Liquids transported by Carrier will be measured in accordance with the provisions of the agreement governing the interconnection of Carrier's facilities with those of the operator located upstream of a given Receipt Point and downstream of a given Delivery Point. Shipper and its representatives may be present to witness any provings or tests of meters and measurement facilities.

ITEM NO. 35 - MIXTURES

Carrier may commingle Natural Gas Liquids received from the various Receipt Point(s). Carrier reserves the right at any time to substitute and deliver Natural Gas Liquids of the same specification as the Natural Gas Liquids tendered by Shipper at a Receipt Point.

Natural Gas Liquids will be accepted for transportation service only on the condition that they shall be subject to such changes in characteristics (including component changes), while in transit, as may result from the mixture with other Natural Gas Liquids. Carrier shall be under no obligation to make delivery of the identical Natural Gas Liquids, but may make delivery out of the common stream and Shippers will be required to accept such delivery.

ITEM NO. 40 - NOTICE OF NOMINATIONS

Natural Gas Liquids for shipment through the line of Carrier will be received only on properly executed Nominations from the Shipper showing the Receipt Point at which the Natural Gas Liquids is to be received, Delivery Point, and amount of Natural Gas Liquids to be transported. If Shipper does not furnish such Nomination, Carrier will be under no obligation to accept such Natural Gas Liquids for transportation service.

Any Shipper desiring to nominate Natural Gas Liquids for transportation service shall make such Nomination to Carrier in writing on or before the fourteenth (14th) Day of the Month preceding the Month during which the transportation service is to begin (the "*Nomination Period*"), on forms which will be supplied by Carrier upon request. A Shipper may nominate Natural Gas Liquids for transportation service after the Nomination Period has expired at Carrier's sole discretion.

Carrier may refuse to accept Natural Gas Liquids for transportation where Shipper is not in compliance with other provisions of this Tariff or where Shipper has failed to comply with all applicable laws, rules and regulations made by any governmental authorities having jurisdiction over such shipments of Natural Gas Liquids.

ITEM NO. 45 - SCHEDULING SHIPMENTS

Carrier will transport and deliver Natural Gas Liquids with reasonable diligence, taking into account the quantity and quality of the Natural Gas Liquids, distance of the transportation service, safety of operations, and other relevant factors; provided, that unless Carrier is grossly negligent or engages in willful misconduct, Carrier's failure or delay in transporting or delivering Natural Gas Liquids shall not give rise to or impose any liability on Carrier.

ITEM NO. 50 - FAILURE TO TAKE DELIVERY AT DESTINATION

Shipper shall remove Natural Gas Liquids, or cause Natural Gas Liquids to be removed, from Carrier's facilities following transportation thereof to a nominated Delivery Point(s). If Shipper fails to remove Natural Gas Liquids as required by this tariff, Carrier shall have the right, without liability to Shipper, to make such disposition of unremoved Natural Gas Liquids as is necessary for the efficient operation of Carrier's facilities, including storing, selling at public auction, or otherwise disposing of the Natural Gas Liquids. Shipper shall pay Carrier all costs and expenses associated with such disposition the same as if Shipper had authorized such, together with any additional costs and damages incurred by Carrier. If such disposal does not result in proceeds to compensate Carrier for all such additional costs and damages incurred by Carrier, and all charges for transportation then due Carrier, then Shipper shall remain liable for all uncompensated charges due to Carrier and for all expenses incurred by Carrier.

In addition to all other remedies available to Carrier, including remedies under this Item No. 50, Shipper will pay a daily demurrage charge for each Day that Shipper fails to remove Natural Gas Liquids from Carrier's facilities. The daily demurrage charge will be one cent (\$0.01) per Barrel for each Day or fractional part thereof.

ITEM NO. 55 - PAYMENT OF CARRIER RATES, FEES AND CHARGES

Carrier will assess transportation service and all other rates, fees and charges accruing on Natural Gas Liquids accepted for transportation service at the respective rate in effect on the date that such Natural Gas Liquids are received at the Receipt Point. Carrier will invoice Shipper for transportation rates, fees, and charges and all other amounts accruing on the Natural Gas Liquids so accepted in accordance with Carrier's then-current payment policies and procedures at the rates published in Carrier's Rates Tariff.

Shipper hereby assigns and grants to Carrier a continuous and continuing security interest in, and assignment of, all of the following, whether now or hereafter existing or acquired, as collateral security for the prompt and complete payment and performance of the Obligations (as hereinafter defined), the following (collectively, the "*Collateral*"): (a) all Natural Gas Liquids accepted by Carrier for transportation

service or otherwise, including but not limited to Shipper's minimum Linefill (as defined in Item No. 85); (b) all other property of Shipper now in the possession of and at any time and from time to time hereafter delivered to Carrier or its agents, (c) all of Shipper's pre-payments, deposits, balances, and credits with, and any of its claims against, Carrier, at any time existing; and (d) all Natural Gas Liquids and proceeds of any of the foregoing property in any form. The foregoing grant and assignment of Collateral secures the following obligations of Shipper (collectively the "*Obligations*"): (a) all antecedent, current and future transportation service, special, ancillary and other rates, fees or charges arising under or related to this tariff or any TSA; (b) the repayment of any amounts that Carrier may advance or spend for the storage or maintenance and preservation of the Collateral; (c) all amounts owed under any modifications, renewals or extensions of any of the foregoing Obligations; and (d) any indemnification obligations of Shipper arising hereunder. If any amounts accruing and owed to Carrier under this tariff or a TSA remain unpaid ten (10) Days after final notice and demand therefore, Carrier shall have the right, in addition to and not in limitation of its other rights and remedies, to liquidate and apply the proceeds to the payment of all such charges and to reimburse Carrier for expenses associated with liquidating the Collateral.

If any amounts owed by Shipper are not paid by the due date stated on the invoice, Carrier shall have the right to assess a finance charge on the entire past due balance until paid in full at a rate equal to the lesser of (i) the prime rate per annum plus three percent (3%), with the prime rate being the then- effective prime rate of interest published under "Money Rates" by The Wall Street Journal or (ii) the maximum interest rate allowed by applicable law.

If Shipper fails to pay any charges when due, Carrier shall not be obligated to provide Shipper access to Carrier's facilities or provide services pursuant to Carrier's tariff until such time as payment is received by Carrier and Shipper meets the requirements of the following paragraph. In addition, Carrier reserves the right to set-off any amounts owing to Carrier against any monies owed by Carrier to Shipper or any of its affiliates under this tariff, a TSA, or under any other agreement, or against any Natural Gas Liquids of Shipper in Carrier's custody. In addition, Shipper shall pay all documented costs incurred by Carrier to collect any unpaid amounts, including reasonable attorney fees and costs incurred by Carrier.

Carrier shall have a lien on all Natural Gas Liquids received into Carrier's pipeline. Such lien shall take effect at the point of origin as Natural Gas Liquids are received into Carrier's pipeline. Such lien shall secure the payment of any and all charges and fees owed to Carrier by Shipper, including but not limited to penalties, interest and late payment charges, whether or not incurred on the Natural Gas Liquids in Carrier's pipeline and whether or not invoiced. Such lien shall be in addition to any and all other rights and remedies Carrier has at law or in equity.

If Carrier determines that the financial condition of Shipper or Shipper's guarantor (if any) is or has become impaired or unsatisfactory or Carrier determines that assurance of Shipper's performance is not adequately assured or that it is otherwise necessary to obtain security from Shipper, Carrier, upon notice to Shipper, may require any of the following prior to Carrier's delivery of Shipper's Natural Gas Liquids in Carrier's possession to a Delivery Point or prior to Carrier's acceptance of Shipper's Natural Gas Liquids at a Receipt Point: (1) prepayment of all charges, (2) a letter of credit at Shipper's expense in favor of Carrier in an amount sufficient to ensure payment of all such charges and, in a form, and from an institution acceptable to Carrier, or (3) a guaranty in an amount sufficient to ensure payment of all such charges and in a form and from a third party acceptable to Carrier. If Shipper fails to comply with any such requirement on or before the date supplied in Carrier's notice to Shipper, Carrier shall not be obligated to provide Shipper access to Carrier's facilities or provide transportation service pursuant to this tariff until such requirement is fully met.

ITEM NO. 60 - CLAIMS, SUITS AND TIME FOR FILING

Notice of claims for loss or damage must be made in writing to Carrier within six (6) Months after delivery of the Natural Gas Liquids, or in the case of a failure to make delivery, then within six (6) Months after delivery of the Natural Gas Liquids to Carrier for shipment.

Suit against Carrier shall be instituted only within two (2) years and one (1) Day from the Day when notice in writing is given by Carrier to the claimant that Carrier has disallowed the claim or any part or parts thereof specified in the notice.

Where claims for loss or damage are not filed or suits are not instituted thereon in accordance with the foregoing provisions, such claims will not be paid and Carrier shall not be liable therefore.

ITEM NO. 65 - LIABILITY OF CARRIER

While in possession of Natural Gas Liquids nominated to it for shipment, Carrier shall not be liable to Shipper for any delay in delivery, damage thereto, or for any loss of Natural Gas Liquids caused by Force Majeure or by act of default of Shipper, or resulting from any other cause that is not the result of Carrier's gross negligence or willful misconduct, whether similar or dissimilar to the causes herein enumerated. Any such loss or damage shall be apportioned by Carrier to each shipment of Natural Gas Liquids or portion thereof involved in such loss in the proportion that such shipment or portion thereof bears to the total of all Natural Gas Liquids in the loss, and each Shipper shall be entitled to receive only that portion of its shipment remaining after deducting its proportion of such loss. Carrier shall prepare and submit a statement to Shipper showing the apportionment of any such loss.

Carrier will not be liable for discoloration, contamination, or deterioration of Natural Gas Liquids transported unless such discoloration, contamination, or deterioration of Natural Gas Liquids transported results from the gross negligence or willful misconduct of Carrier. Carrier operates under this tariff solely as a common carrier and not as an owner, manufacturer, or seller of the Natural Gas Liquids transported hereunder, and Carrier expressly disclaims any liability for any express or implied warranty for Natural Gas Liquids transported or stored hereunder including any warranties of merchantability or fitness for intended use.

Carrier shall not be liable for any injury, disease or death of any person or damage to or loss of any property, fine or penalty, any of which is caused by the negligence, gross negligence or willful misconduct of Shipper, its affiliates, or any of their respective employees, representatives, agents or contractors in Shipment of product under this tariff or the handling, storage, transportation or disposal of any of the Natural Gas Liquids herein described.

In no event shall Carrier be liable to Shipper for consequential, punitive, special, incidental or exemplary damages, or for loss of profits or revenues incurred by Shipper or its affiliates that arise out of or relate to shipments of Natural Gas Liquids under this tariff, regardless of whether any such claim arises under or results from contract, tort, or strict liability.

As a condition precedent to Carrier's acceptance of Natural Gas Liquids for transportation under this tariff each Shipper agrees to indemnify and save Carrier harmless from any loss, claims, or damages (including but not limited to consequential damages and attorney's fees and costs) for injury or death of any person and for damage to property of Carrier, Shipper, consignee, and/or third parties resulting from or arising out of any breach of any provision of this tariff by Shipper, its consignee, its agents, employees, or representatives or the negligence of Shipper, its consignee, its agents, employees, or representatives.

ITEM NO. 70-PRORATION OF CAPACITY

Carrier will prorate the capacity of its facilities or a portion of its facilities during any Month when it determines, based upon the Nominations properly submitted by Shippers, that the total volume nominated by all Shippers for shipment on Carrier's facilities or portion thereof during that Month exceeds the capacity of Carrier's facilities or portion thereof. Carrier's Proration Policy is available upon request.

Prorated volumes allocated to a Shipper may not be assigned, conveyed, loaned, transferred to, or used in any manner by another Shipper. However, a Shipper's allocation may be transferred as an incident of the bona fide sale of the Shipper's business or to a successor to the Shipper's business by the operation of law, such as an executor or trustee in bankruptcy. A Shipper may not use an affiliated or cooperating entity to obtain an increased allocation of prorated capacity.

ITEM NO. 75 - SYSTEM LOSSES

Quantities of Natural Gas Liquids will be adjusted at the Delivery Point(s) to allow for inherent losses or gains, including but not limited to shrinkage, evaporation, measurement, interface losses and other physical losses. Losses shall be charged proportionately to each shipper in the ratio that such shipment, or portion thereof, received and undelivered at the time of the loss or damage occurs, bears to the total of all shipments, or portions thereof, then in the custody of Carrier for shipment via the lines or other facilities in which the loss or damage occurs. Shipper shall be entitled to receive only that portion of its shipment remaining after deducting its proportion of such loss or damage determined as aforesaid.

ITEM NO. 80 - COMPONENT BALANCING

It is the individual Shipper's responsibility to handle Component balancing; participation in the Component balancing process is a pre-requisite to shipping on Carrier's facilities. Carrier will work with its Shippers, connected pipelines, and connected origins in this regard to function as a source of information and to ensure confidentiality.

On a monthly basis, Shippers are required to cash out any Component imbalance to zero. The "*Shipper Cash-Out Position*" equals the sum of (i) each Component imbalance, *multiplied by* (ii) the corresponding OPIS Index. If for any Month a Component imbalance exists, the Shipper will be notified of its Shipper Cash-Out Position on the Component Balance Statement, which will be provided to the Shipper along with Carrier's invoice. A positive Shipper Cash-Out Position shall be paid by Shippers within ten (10) days from receipt of the Component Balance Statement. A negative Shipper Cash-Out Position shall be paid by Carrier within ten (10) days from issuance of the Component Balance Statement.

ITEM NO. 85 - LINEFILL REQUIREMENTS

Shipper will supply its pro-rata share of Natural Gas Liquids for Linefill as Carrier determines is necessary to maintain efficient operations of Carrier's facilities in accordance with the Linefill Policy, available upon request. Every twelve (12) Months, or more frequently at the option of Carrier, Carrier shall adjust the Linefill so that it provides its pro-rata amount of Linefill equivalent to Shipper's total deliveries to the Receipt Points during the preceding Month divided by total deliveries by all Shippers at all Receipt Points during the preceding Month. Upon Shipper's payment of all amounts payable under this tariff, a TSA, and any other agreements between Carrier and Shipper or their affiliates affecting the movement of Natural Gas Liquids on Carrier's facilities, Natural Gas Liquids used as Linefill shall be returned to Shipper and charged applicable transportation rates in the Rates Tariff, after such Shipper has provided written notice to Carrier of Shipper's intent to cease delivering Natural Gas Liquids to the Receipt Points and after a reasonable period of time to allow for administrative and operational requirements associated with the withdrawal of such Natural Gas Liquids.

ITEM NO. 90 - TRANSPORTATION SERVICES AGREEMENTS

Separate TSAs must be executed and delivered by persons that desire to be Incentive Shippers before Carrier is obligated to provide transportation service under this tariff for such persons. Those Shippers that enter into a TSA with Carrier are entitled to pay the Incentive Rate set forth in Carrier's Rates Tariff.

ITEM NO. 95 - CONNECTION POLICY

Connections to Carrier's system will only be considered if made by formal written application to Carrier in the form required by Carrier. Acceptance of any request for connection will be subject to compliance with governmental regulations and approval of Carrier.

ITEM NO. 100 – NO SHIPMENT INTO INTERSTATE COMMERCE

As additional consideration for shipping under this tariff, all proposed Shippers must provide a written representation and warranty, prior to shipping, which affirms the following: (a) Shipper intends that the ultimate destination (even if beyond the Delivery Point(s)) for all Shipper's Natural Gas Liquids transported under this tariff will be to an intrastate destination; and (b) all Natural Gas Liquids delivered to Carrier by Shipper for transport under this tariff will not subject Carrier to any federal regulation, under the laws as they exist as of the date of such transport.

If, at any time during the term of this Agreement, any governmental authority shall take any action which is, with respect to or as a result of the transportation services provided for under this tariff, designated to subject or otherwise subjects Carrier, or the pipeline to any greater or different regulation or jurisdiction than that existing on the date the pipeline is put into service, then upon written notice given to Shipper, Carrier may cancel any prospective shipment without liability to Carrier effective one (1) day prior to the effective date of such governmental action. Additionally, if Carrier is subjected to either (a) regulatory penalties or fines due to a breach of the foregoing warranties or (b) increased costs or expenses due to a breach of the foregoing warranties, Shipper will reimburse Carrier for Shipper's proportionate share (amongst all breaching Shippers) of the amount of such penalties, fines, costs, or expenses.

ITEM NO. 105 – TAXES

Carrier shall not be responsible for or pay, and Shipper agrees to indemnify and hold harmless Carrier for, any and all taxes, import duties, license fees, or other governmental charges, if any levied on the Natural Gas Liquids shipped by Carrier on behalf of Shipper under this tariff for transportation, or on the transportation of such Natural Gas Liquids; provided, however, that Shipper shall not be liable for transportation under this tariff for any taxes (including ad valorem taxes) assessed against Carrier based on Carrier's income, revenues, gross receipts, net, or ownership of Carrier's pipeline worth and all state franchise, license and similar taxes required for the maintenance of Carrier's corporate existence.

ITEM NO. 110 – THIRD-PARTY CHARGES

Carrier shall invoice Shipper for all transportation rates, fees, and charges and other amounts due based upon volumes received by Carrier from Shipper at a Receipt Point during each Month. Shipper shall pay the amount of such invoice within ten (10) Days from receipt of the invoice. In addition to any other fees and charges due under this tariff, if a non-affiliated third-party charges Carrier a fee for receiving, delivering, transferring or otherwise handling Natural Gas Liquids tendered by or otherwise for Shipper's account, Carrier may pass through to or invoice Shipper the portion of such fees or charges as are allocable to Shipper's Product. Shipper shall (i) reimburse Carrier for such fees or charges or (ii) pay such fees or charges directly to the non-affiliated third-party at Carrier's option.
