Item 20 Commencement of Service

- (a) The pipeline segments necessary to provide the service referenced at Items 10-B, 10-C and 10-D above, which each require receipt capabilities at the Jackson Plant, Jackson County, and/or delivery capabilities in Mont Belvieu, Texas, (“Jackson & Mont Belvieu Service”) are not yet fully constructed and operational as of the effective date of this Tariff. As such, Jackson & Mont Belvieu Service will not be available under this tariff until construction is complete on such segments and they are fully operational. Carrier currently estimates that such service will commence during November or December 2012, but such estimate is subject to many factors and contingencies, many of which are beyond the control of Carrier. Therefore, Carrier can make no assurances or representations whatsoever regarding the date the Jackson & Mont Belvieu Service can be provided under this tariff.
- (b) Because of the period of time until project completion and uncertainties that could impact the completion of the pipeline, Carrier reserves the right to modify or amend this tariff to increase or decrease the rates, or to change other terms and conditions, as appropriate.
