

PACKER SETTING REPORT

(File two copies of this form in the RRC District Office for each packer set.)

1. Field Name	2. RRC District
3. Operator of Well	4. County
5. Lease Name(s) and RRC Lease Number(s)	6. Well Number
7. Make and Type of Packer	8. Depth at which Packer was set (ft.)
9. How is the depth in Item 8 measured?	10. Date Packer was set

11. Remarks:

I personally supervised the setting of the packer described in Items 1 through 11. The purpose of setting this packer was to effect a seal in the annular space between the two strings of pipe where the packer was set so as to prevent the commingling in the bore of the well, of fluids produced from a stratum below the packer with fluids produced from a stratum above the packer. The make and type of packer set was adequate to effectively and absolutely seal off the annular space between the two strings of pipe when it was properly set. This packer was properly set.

I declare under penalties prescribed in Sec. 91.143, Texas Natural Resources Code, that I am authorized to make this report, that this report was prepared by me or under my supervision and direction, and that data and facts stated therein are true, correct, and complete, to the best of my knowledge.
