CHRISTI CRADDICK, CHAIRMAN
RYAN SITTON, COMMISSIONER
WAYNE CHRISTIAN, COMMISSIONER

RAILROAD COMMISSION OF TEXAS

November 1, 2020

Honorable Greg Abbott, Governor
Honorable Glenn Hegar, Texas Comptroller
Jerry McGinty, Director, Legislative Budget Board
Lisa Collier, First Assistant State Auditor

Ladies and Gentlemen:

We are pleased to submit the annual financial report of the Railroad Commission of Texas for the year ended Aug. 31, 2020, in compliance with Texas Government Code Annotated, Section 2101.011, and in accordance with the requirements established by the Texas Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) Statement No. 34, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the state auditor as part of the audit of the State of Texas *Comprehensive Annual Financial Report* (CAFR); therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions, please contact Corey Crawford at (512) 463-5011. Mr. Crawford may also be contacted for questions related to the Schedule of Expenditures of Federal Awards.

Sincerely,

DocuSigned by:

A320E7878B01444...
Wei Wang
Executive Director

Notes to the Financial Statements

RAILROAD COMMISSION OF TEXAS (455)

Notes to the Financial Statements

NOTE 1: Summary of Significant Accounting Policies

Entity

The Railroad Commission of Texas is an agency of the state of Texas and its financial records complies with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts *Reporting Requirements for Annual Financial Reports of State Agencies and Universities*.

The Commission was established in 1891 and operates under the state constitution and other enabling statutes. The operations of the Commission are conducted under the direction of three Commissioners who are elected by popular vote to serve overlapping six-year terms. The Commission is a regulatory agency with enforcement powers in areas dealing primarily with oil and natural gas, alternative fuels, gas utilities, pipeline safety, and environmental protection. In addition to its headquarters located in the William B. Travis State Office Building in Austin, the Commission maintains offices throughout the State.

The Commission is a component unit of the statewide reporting entity, which will be audited.

GASB 34

The Comptroller of Public Accounts does not require agencies to comply with all the requirements of the Governmental Accounting Standards Board Statement No. 34, ('GASB 34', *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*) in the preparation of their annual financial report. However, the financial report can be considered for audit by the state auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

There are no component units within the Commission.

Fund Structure

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity.

Governmental Fund Types and Government-Wide Adjustment Fund Types

General Revenue Funds

The General Revenue Fund (Fund 0001) is used to account for all financial resources of the state except those required to be accounted for in another fund.

Oil and Gas Regulation and Cleanup Fund (Fund 5155) – This General Revenue Dedicated fund was established by Chapter 81 of the Natural Resources Code.

Capital Assets Adjustment Fund Type

The Capital Assets Adjustment Fund (Fund 9998) will be used to convert governmental fund types' capital assets from modified accrual to full accrual.

UNAUDITED

RAILROAD COMMISSION OF TEXAS (455)

Long-Term Liabilities Adjustment Fund Type

The Long-Term Liabilities Adjustment Fund (Fund 9997) will be used to convert governmental fund types' debt from modified accrual to full accrual.

Fiduciary Fund Types

Agency Funds

TexasSaver 401(k) Trust (Fund 0942) accounts for tax-deferred portion of salaries of state employees in accordance with the provisions of IRC Section 401(k).

Fin Sec Closure of Comm Disp. Facility (Fund 5145) accounts for cash deposits provided by oil & gas operators to comply with financial security requirements under Natural Resources Code §91.109.

Inactive Well Blanket Trust (Fund 5146) accounts for cash deposits provided by oil & gas operators to comply on an organizational basis with inactive well requirements under Natural Resources Code §89.023(a)(3)(E).

Inactive Well Individual Trust (Fund 5147) accounts for cash deposits provided by oil & gas operators to comply on a per-well basis with inactive well requirements under Natural Resources Code §89.023(a)(3)(E).

Inactive Well Escrow Trust (Fund 5148) accounts for cash deposits provided by oil & gas operators to comply with inactive well requirements under Natural Resources Code §89.023(a)(3)(F).

P5 Cash Option Trust (Fund 5149) accounts for the cash deposits provided by oil and gas operators to meet the statewide financial assurance requirements mandated by Natural Resources Code §91.104.

Basis of Accounting

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types are accounted for using the modified accrual basis of accounting. Under the modified accrual basis, revenues are recognized in the period that they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year-end.

The state of Texas considers receivables collected within 60 days after fiscal year-end to be available and recognizes them as revenues of the current year for fund financial statements prepared on the modified accrual basis. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

Basis conversion adjustment fund types convert modified accrued basis to full accrued basis of accounting. The following activities are recognized in these fund types:

- Capital assets
- Accumulated depreciation
- Unpaid employee compensable leave
- Capital leases
- Long-term claims and judgments
- Full accrual revenues and expenses
- Pension amounts in governmental activities

RAILROAD COMMISSION OF TEXAS (455)

BUDGET AND BUDGETARY ACCOUNTING

The budget is prepared biennially and represents appropriations authorized by the legislature and approved by the Governor (the General Appropriations Act). The Commissioners adopt an annual operating budget consistent with these appropriations. Encumbrance accounting is utilized for budgetary control purposes.

Unencumbered appropriations are generally subject to lapse 60 days after the end of the biennium for which they were appropriated.

ASSETS, LIABILITIES, AND FUND BALANCES / NET ASSETS

ASSETS

Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

Inventories and Prepaid Items

Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued at cost, generally using the last-in, first-out method. The consumption method of accounting is used to account for inventories and prepaid items that appear in the governmental and proprietary fund types. The cost of these items is expensed when the items are used or consumed.

Capital Assets

Assets that meet the reporting threshold and useful life are capitalized. The capitalization threshold and the estimated useful life vary depending on the asset type. These assets are capitalized at cost or, if purchased, at appraised fair value as of the date of acquisition. Purchases of assets by governmental funds are reported as expenditures. Depreciation is reported on all "exhaustible" assets. "Inexhaustible" assets (such as works of art and historical treasures) are not depreciated. Road and highway infrastructure are depreciated over the estimate of average useful life of a grouping of assets using composite method. Other depreciable assets are depreciated over the estimated useful life of the asset using the straight-line method.

All capital assets acquired by proprietary funds or trust funds are reported at cost or estimated historical cost if actual historical cost is not available. Donated capital assets are reported at acquisition value. Depreciation is charged to operations over the estimated useful life of each asset using the straight-line method.

LIABILITIES

Accounts Payable

Accounts payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

UNAUDITED

RAILROAD COMMISSION OF TEXAS (455)

Employees' Compensable Leave Balances

Employees' compensable leave balances represent the liability that becomes "due" upon the occurrence of relevant events such as resignations, retirements and uses of leave balances by covered employees. Liabilities are reported separately as either current or noncurrent in the statement of net position. These obligations are normally paid from the same funding source from which each employee's salary or wage compensation was paid.

Pollution Remediation Obligation

A pollution remediation obligation refers to a government's responsibility to address the current or potential detrimental effects of existing pollution through such activities as environmental assessments or cleanups. The Commission recognizes this liability when it begins to clean up pollution or conducts related remediation activities to the extent that the government is legally obligated to complete those activities.

FUND BALANCE / NET POSITION

"Fund balance" is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the governmental fund statements. "Net position" is the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the government-wide and fiduciary fund statements.

Railroad Commission of Texas uses resources in the following order:

- When both restricted and unrestricted resources are available, use:
 1. Restricted resources
 2. Unrestricted resources (as they are needed)

- When only unrestricted resources are available for use in governmental funds, use:
 1. Committed resources
 2. Assigned resources
 3. Unassigned resources

Fund Balance Components

Fund balances for governmental funds are classified as nonspendable, restricted, committed, assigned or unassigned in the fund financial statements.

- Nonspendable fund balance includes amounts not available to be spent because they are either:
 - Not in spendable form
 - Legally or contractually required to be maintained intact.

- Restricted fund balance includes those resources that have constraints placed on their use through external parties or by law through constitutional provisions.

- Committed fund balance can be used only for specific purposes pursuant to constraints imposed through legislation passed into law by a formal action of the Texas Legislature, the state's highest level of decision making authority.

UNAUDITED

RAILROAD COMMISSION OF TEXAS (455)

- Assigned fund balance includes amounts constrained by the state’s intent to be used for specific purposes, but the constraints do not meet the requirements to be reported as restricted or committed. Intent is expressed by either:
 - The Texas Legislature
 - A body (for example, a budget or finance committee) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.
- Unassigned fund balance is the residual classification for the general fund. This classification represents fund balance that was not restricted, committed or assigned to specific purposes within the general fund.

Restricted Net Assets

Restricted net assets result when constraints placed on net asset use are imposed by law through constitutional provisions or enabling legislation. This represents approved and authorized orders to expend funds for plugging abandoned wells and cleanup of sites, pursuant to Chapter 89, Texas Natural Resource Code, and for site remediation pursuant to Chapter 91, Texas Natural Resource Code.

Unrestricted Net Assets

Unrestricted net position consists of net resources that do not meet the definition of the two preceding categories. Unrestricted net assets often have constraints on resources, which are imposed by management, but can be removed or modified.

INTERFUND ACTIVITIES AND TRANSACTIONS

The agency has the following types of transactions between funds:

- Transfers – Legally required transfers that are reported when incurred as “transfers in” by the recipient fund and as “transfers out” by the disbursing fund.
- Reimbursements – Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another that are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.

COVID-19 Pandemic

The agency has altered operations to effectively regulate the oil and gas industry during the COVID-19 pandemic. In FY 2020, the agency had expenditures related to protecting the health and safety our employees and enabling telework during the pandemic. The agency has no first responder responsibilities related to the COVID-19 pandemic. At this time, the agency does not anticipate federal reimbursements from the CARES Act or other similar federal legislation.

RAILROAD COMMISSION OF TEXAS (455)

NOTE 5: Long-Term Liabilities**Changes in Long-Term Liabilities**

During the year ended August 31, 2020, the following changes occurred in liabilities.

Governmental Activities	Balance 09/01/2019	Additions	Reductions	Balance 08/31/2020	Amounts Due Within One Year	Amounts Due Thereafter
Employees' Compensable Leave	\$5,300,029.37	\$5,534,896.46	\$4,233,948.72	\$6,600,977.11	\$3,958,953.23	\$2,642,023.88
Pollution Remediation Obligation	14,824,024.52	41,863,200.00	50,311,444.81	6,375,779.71	6,375,779.71	0.00
Claims and Judgments	7,644.00	26,872.11	34,516.11	0.00	0.00	0.00
Total Governmental Activities	\$20,131,697.89	\$47,424,968.57	\$54,579,909.64	\$12,976,756.82	\$10,334,732.94	\$2,642,023.88

Employees' Compensable Leave

A state employee is entitled to be paid for all unused vacation time accrued, in the event of the employee's resignation, dismissal, or separation from State employment, provided the employee has had continuous employment with the State for six months.

Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. For these fund types, the liability for unpaid benefits is recorded in the Statement of Net Assets. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits. The obligation is usually paid from the same funding source (s) from what the employee's salary or wage compensation was paid.

Pollution Remediation Obligations

The Railroad Commission of Texas recognizes a pollution remediation obligation when it commences, or legally obligates itself to commence, cleanup activities. The Commission enters into contracts with third parties for abandoned site remediation and abandoned well plugging. These contracts are used to estimate the amount of the plugging and pollution remediation obligation at year end.

Under Texas Natural Resource Code §89.043, the Railroad Commission may plug abandoned wells if the wells will cause or are likely to cause a serious threat of pollution or injury to the public health. The Commission has 22 active well plugging projects as of August 31, 2020, with an estimated cost of \$4,024,441.30.

Under Texas Natural Resource Code §91.113, the Commission may clean up abandoned oil and gas sites that are causing or are likely to cause the pollution of surface or subsurface water. The Commission has 22 active

UNAUDITED

RAILROAD COMMISSION OF TEXAS (455)

site remediation projects as of August 31, 2020, with an estimated cost of \$2,351,338.41. Funding for these programs come from regulatory and permit fees paid by the oil and gas industry.

Under the Texas Surface Coal Mining and Reclamation Act, the Railroad Commission administers funds from the U.S. Department of the Interior for the Abandoned Mine Land Reclamation Program. The Commission has zero projects on-going as of August 31, 2020.

Claims & Judgments

The Attorney General's Claims Section assisted in settling three claims on the Commission's behalf during FY 2020, without resort to litigation, arising from motor vehicle accidents involving Commission employees acting within the course and scope of their employment. As of FY 2020, there were total of three claims from vehicle accidents.

Claimant State Farm Mutual Auto Insurance Co c/o C. Farmer received \$7,644. Claimant State Farm Mutual Auto Insurance Co c/o B. Jacobs received \$1,240.37. Claimant CEI Inc. c/o J. Franco received \$25,631.74.

NOTE 6: Bonded Indebtedness

Not applicable.

NOTE 7: Derivative Instruments

Not applicable.

NOTE 8: Leases

Included in the expenditures reported in the financial statements are the following amounts of rent paid or due under operating lease obligations:

Fund Type	
General Fund	24,991.40
General Revenue Dedicated – Fund 5155	681,806.25
Totals – Memorandum Only	\$706,797.65

Future minimum lease rental payments under non-cancelable operating leases having an initial term in excess of one year are as follows:

Year Ended August 31,	
2021	751,346.93

RAILROAD COMMISSION OF TEXAS (455)

2022	688,535.04
2023	509,164.09
2024	506,819.71
2025	455,233.65
FY 2026-2028	1,007,683.91
Total Minimum Future Lease Rental Payments	\$3,918,783.33

NOTE 9: Defined Benefit Pension Plans and Defined Contribution Plan

Not applicable.

NOTE 10: Deferred Compensation

Not applicable.

NOTE 11: Post-Employment Health Care and Life Insurance Benefits

Not applicable.

NOTE 12: Interfund Activity and Transactions

Not applicable.

NOTE 13: Continuance Subject to Review

The Commission is subject to Chapter 325, Texas Government Code. Unless continued in existence by the Legislature, the Commission is abolished September 1, 2029.

NOTE 14: Adjustments to Fund Balances and Net Position

Not applicable.

NOTE 15: Contingent Liabilities

The Commission is a party to numerous lawsuits that have generally arisen out of the regulation of various segments of the energy industry, claims made by former employees, and motor vehicle accidents involving Commission employees on official business. Some of these lawsuits involve enforcement actions initiated by the Commission to collect penalties for violations of the Commission's rules. Other cases are appeals of administrative orders issued by the Commission and represent little or no potential for monetary recovery against the Commission. The Commission is presently a defendant in four motor vehicle accident lawsuits. While contingent liabilities in these suits are not subject to reasonable estimation, they are statutorily capped by the Texas Tort Claims Act at \$250,000 per plaintiff.

NOTE 16: Subsequent Events

There are no subsequent events to report.

NOTE 17: Risk Management

The Commission is exposed to a variety of civil claims resulting from the performance of its duties. It is agency policy to periodically assess the proper combination of insurance and retention of risk to cover losses to which it may be exposed.

The Commission assumes substantially all risks due to the performance of its duties. Currently, there are three purchases of commercial insurance. The agency is not involved in any risk pools with other government entities. The Commission participates in the State Office of Risk Management's (SORM) Risk Management and Worker's Compensation Coverage Program.

Four insurance policies have been purchased through SORM:

- Public Officials Liability Insurance Policy (Effective 9/1/2019 – 9/1/2020).
Premium: \$31,085.
- Automobile Liability Insurance Policy (Effective 2/7/2020 - 2/7/2021).
Premium: \$26,000.
- Volunteer Insurance Policy (Effective 7/1/2020 – 7/1/2021).
Premium: \$51.79.
- Drone Aviation Insurance (Effective 12/20/2019 – 12/20/2020).
Premium: \$21,738.

The agency's liabilities are reported when it is both probable that a loss has occurred, and the amount of that loss can be reasonably estimated. There were no significant reductions in insurance coverage in the past year

UNAUDITED

RAILROAD COMMISSION OF TEXAS (455)

and losses did not exceed funding arrangements during the past three years. Changes in the balances of the Commission's claims liabilities during fiscal years 2019 and 2020 were:

	Beginning Balance	Increases	Decreases	Ending Balance
2019	\$0.00	\$12,932.00	\$5,288.00	\$7,644.00
2020	\$7,644.00	\$26,872.11	\$34,516.11	\$0.00

NOTE 18: Management Discussion and Analysis

The revenue in the Oil and Gas Regulation Cleanup (OGRC) fund is generated from the Texas oil and gas industry. The Texas oil and gas industry experienced significant volatility in oil prices and production during FY 2020. The COVID-19 pandemic disrupted international economics collapsing the demand for oil. A dispute between Saudi Arabia and Russia led to an increase in supply that further pushed oil prices down.

The Commission's licensing and permitting revenue decreased by \$10 million from the prior fiscal year primarily due to the decline in oil and gas well drilling permits and the related 150% surcharge on those permit application fees. From September 2019 through February 2020, West Texas Intermediate (WTI) oil commodity pricing averaged \$56.00 per barrel, with drilling permit revenue of \$3.8 million. From March 2020 to August 2020, WTI pricing averaged \$32.73 per barrel, with drilling permit revenue of \$1.8 million. Oil prices partially recovered to \$40 per barrel towards the end of the fiscal year. Multiple factors make it uncertain when prices and production will fully return to pre-pandemic levels.

OGRC expenditures dropped as the environmental clean of abandoned oil and gas wells was primarily funded by General Revenue and Economic Stabilization funds. Agency-wide salaries and wages grew by 10% as the agency filled new positions authorized by the 86th Legislature for inspectors and the mainframe transformation capital IT project.

NOTE 19: The Financial Reporting Entity

Not applicable.

NOTE 20: Stewardship, Compliance and Accountability

As of October 1, 2020, management is unaware of any issues that affected stewardship, compliance, or accountability.

RAILROAD COMMISSION OF TEXAS (455)

SCHEDULE 1A

Schedule of Expenditures of Federal Awards — Notes

For the Fiscal Year Ended August 31, 2020

Note 2 - Reconciliation

Below is a reconciliation of the total of federal pass-through and federal expenditures as reported on the Schedule of Federal Financial Assistance to the total of **federal revenues** and **federal grant** pass-through revenues as reported in the general-purpose financial statements. Generally, federal funds are not earned until expended; therefore, federal revenues equal federal expenditures for the reporting period.

Federal Revenues:

Per Combined Governmental Operating Statement/Statement of Activities

Governmental Funds - Federal Revenue (Exhibit II)	\$ 11,967,407.64
Governmental Funds - Federal Pass-Through Revenues (Exhibit II)	<u>-</u>
Total Pass Through and Expenditures per Federal Schedule	<u><u>\$ 11,967,407.64</u></u>
